MAYOR AND THREE COUNCILLORS NEEDED FOR THE 1929 TERM

Term of Office Expires for Mayor H. O. Bredin and Councillors E. P. Currie, A. McKee, and W. B. Playfair—Must Also Choose Two Members for School Board and One for Hospital Board

The two year term of office of Mayor H. O. Bredin and Councillors A. McKee, E. P. Currie, and W. B. Playfair, has expired, leaving four vacancies to be filled in the town council. This was brought to the attention of the council at their monthly meeting held in the Town Hall last Monday evening, Jan. 14th.

The council was also notified that there was a vacancy in the board of the Bassano Municipal Hospital District, H. O. Bredin, who represents the town of Bassano, having completed his term of office.

Nomination day for mayor, councillors, school trustees, and hospital board member will be Monday, Feb. 4th. Election day, if it is decided necessary, will be Monday, Feb. 11th. If there are only enough candidates nominated to fill the vacancies there will be no election.

The annual meeting of the town council will be held on Friday, January 25th.

Arrangements were made for a tax rate to be held on Thursday, March 14th.

By-law No. 102, appointing Jan. H. Donaldson returning officer for 1929, was read and passed.

Engineer's Report

Town engineer Frank Mead submitted his report covering the operations of the public works department during the year 1928. There were 28 bursts, 50 leaks repaired in the water mains, 4 water services replaced, trouble at the water intake caused by the spring was overcome by installing a vacuum pump. Considerable improvements were made in the sidewalks; a catch basin was installed on the corner of Third Ave and Fourth St. Five fire alarms were turned in, but none of them were serious. The irrigation system was put into operation, but owing to the failure of the structure in the C. P. R. canal the system could not be used during the latter part of the season. Certain buildings owned by the town were repaired, and others torn down. In his report Mr. Mead brought to the attention of the council the bad state of repair of the old King pediment, which constitutes a serious fire risk. Mr. Mead stated the building contained about 30,000 feet of lumber that could be salvaged without much waste.

Accounts

The following accounts were read and passed for payment:

Petty cash disbursements	44.26
Mrs. J. L. Forsen	54.80
Dept. of Mun. Affairs	1.25
Dept. of Mun. Affairs	7.00
United Elec. & Eng. Co.	216.20
Telephone	17.15
Bassano Fire Brigade	29.00

Board Of Trade Winds Up Business Affairs Of 1928

Annual Meeting and Election of Officers Will Be Held January 16th

About thirty members and three visitors attended the Board of Trade meeting in the Hunter Hotel dining room at 1 o'clock p.m. Wednesday this week, Jan. 16th. It was a splendid turnout, and the usual kens was displayed in the discussion. Pres. W. J. Blackie presided, and the meeting was voted down.

Two Motions Turned Down

Two motions which came before the meeting were voted down. The first was a motion by James Johnston that the sum of \$350 be turned over to the Bassano School board to purchase much needed playground equipment. Mr. Johnston explained that the school board had no funds with which to purchase much needed playground equipment, and he appealed to the board of trade to supply the money. A number of members felt that as the board of trade had no obligations to the school, it would be unwise to support Mr. Johnston's motion. The motion was voted on and turned down.

The other motion, coming from A. Connolly and R. McLean, was that the town council be requested to enforce the carter by-law, making uncleanliness thereof. It seemed unnecessary. This motion was also voted down.

Annual Meeting

The next meeting of the board, Jan. 16th, will be the annual meeting for the election of officers. The various committees will report on their work for the past year. It was decided to have in the hands of the executive committee the appointment of a nomination committee to get candidates for office during 1929.

The Hon. C. C. McLean, new pastor of Knox Presbyterian Church, was given a welcome by the members. Mr. McKee thanked the Board of Trade, and made a brief speech.

Curlers Enjoy Turkey Supper

Respectful Culmination Competition Between President and Vice President

About forty curlers gathered around the banquet board in the Hunter Hotel last Wednesday evening, Jan. 16th, and celebrated with a turkey supper, the victory of the vice president's team over that of the president.

The poor old president never has won this competition, which marks the opening of the curling season in Bassano, and this season the newly elected president was no more successful than his predecessors.

At 7:30 p.m. the curlers gathered for the event, and sat down to a supper of roast turkey, roast beef, and vegetables, and apple pie for dessert.

President Harry Holmes sat at the head of the table, and when all the hungry appetites had been satisfied he gave a brief address. Wm. McLean was called on for a toast to good sportsmanship, which was responded to by E. P. Currie. Bill McKee, who was so unfortunate as to be on the president's team, and thus obliged to lose a portion of the cost of the supper, manifested that he observed the cup turn of the curlers was sometimes not just right, and the in turn sometimes a wee bit off, but their intake, he had noticed during the meal, was something awful.

Death Of Joseph Howard Brewer

Old Timer Died With Masonic Honors

Joseph Howard Brewer, old timer in the district, died in Bassano Saturday, Jan. 12th, at the age of 88 years. The late Mr. Brewer's funeral was held at 10 o'clock on Monday, Jan. 14th, at the home of Mrs. J. H. Brewer, north of Crawford. He was a highly respected citizen, a good neighbor, and had a host of friends in Bassano and vicinity. He was a chartered accountant formerly, following that profession before coming to Canada.

Joseph Howard Brewer was born at Wexham, Pennsylvania. He came from Pittsburgh, Penn., to Calgary in March, 1911, and settled near Crowfoot in June of the same year, where he had resided ever since. Deceased is survived by his wife, a brother in Cedar Rapids, Iowa, and a sister in Pittsburgh.

About thirty years ago the late Mr. Brewer became a member of Dallas Lodge No. 505, A.P. & A.M. Pittsburgh, and was a member of Harmony Chapter No. 4, A.O. U.E. He was buried with Masonic honors at 2:30 p.m., Tuesday, Jan. 8th, in the funeral service taking place in Knox Presbyterian Church. The Rev. P. C. McLean conducted the service.

Fourty members of Bassano and Huxar Lodge, A.P. & A.M., attended the funeral, and accompanied the body of their departed brother to his last resting place in the Bassano Cemetery where the final Masonic rites were solemnized.

The executive held a meeting and decided to hold the curling games on Wednesday night. The curling games were cancelled because of water on the ice. Monday night the ice was heavy following a mild day, and some of the curlers had difficulty in getting their rocks over the hog line.

U. P. A. MEETING

The Bassano local U. P. A. held their last meeting at the home of J. Powell last Tuesday evening, Jan. 15th. The year was commemorated with a special membership of 22.

Robt. Lohn, of Lathrup, was elected delegate to represent Bassano local at the U. P. A. convention in Edmonton.

The next meeting will be held on February 15th in the Lathrup Community Hall at 8:00 p.m.

Countess News

COUNTRESS, Jan. 15th—Mrs. Max Gamble and daughter Jeanne were pleasant callers Sunday evening at the home of H. P. Ferguson home.

W. W. Parrott is spending this week in Calgary at the auto and tractor demonstration school.

Mrs. W. W. Parrott and three children returned home from spending Christmas and New Years at Huxton with Mrs. Parrott's brother, James Kyn, and his family.

We hear that W. Dingley has sold all of his cattle to Mr. Fisher. Most of the Countess folks who have been ill with the flu are now being out and around again. We are glad to hear this.

Fred Sorenson is helping A. M. Anderson in the store near the school. The annual meeting of the ratepayers of Burn Bay School District is called for the 16th of January, at 1 p.m. in the schoolhouse.

T. Jordan is back building and storing for next summer. Miss Bartos, who teaches Countess school, is ill at present, and the school is closed.

Jan. 4th and Mrs. Max Gamble spent a couple of days in Calgary, returning home last Friday. Mr. and Mrs. C. W. Jones are New Year's visitors at A. D. Ferguson's. The Jas. Heldt family and the Harry Cowan family have been quite ill with the flu, but have reported better at this writing.

Mr. and Mrs. Max Gamble, Mr. Mack, and Miss Donald Ferguson are in the city. They are all well. They report a very nice time.

The Misses Bernice and Doris Thompson are home from Calgary where they have been attending school, to spend the Christmas vacation with their folks.

Miss Marie Chamberlain, who is teaching at Weyburn, is spending this week of her vacation with her sister, Mrs. Gamble.

Dale Ferguson, Mrs. Hawes, and little Wilma Jane are ill with the flu this week.

Curling took a slump this week when the rise in temperature softened the ice. Wednesday night all games were cancelled because of water on the ice. Monday night the ice was heavy following a mild day, and some of the curlers had difficulty in getting their rocks over the hog line.

The executive held a meeting and decided to hold the curling games on Wednesday night. The curling games were cancelled because of water on the ice. Monday night the ice was heavy following a mild day, and some of the curlers had difficulty in getting their rocks over the hog line.

Gen News

GEN, Jan. 15th.—Mrs. Maguire's trip to Los Angeles proved to be very exciting. Something went wrong with the engine of the train on which she and her daughter Irene, were riding. After a delay of about two hours another engine was brought from Spokane and attached to the disabled one. In trying to make up lost time the two engines and five other cars left the rails. The coach which Mrs. Maguire and Irene were in, turned over on its side, but no one was seriously injured.

D. C. Fortney, J. P. Hoyer and W. A. Pollock were Sunday afternoon callers on A. P. Miller.

Pete La Grandeur and family are now residing at Alderton. Mrs. La Grandeur's mother, Mrs. Geo. Villet is visiting them.

Mrs. Miller entertained a number of friends to a card party on Saturday night. Among those present being Mr. and Mrs. William, Eugene Jones, Mr. and Mrs. W. A. Pollock and family, and Mildred Ferguson.

John Thompson has returned to the Agriculture School at Otonabee. Mr. and Mrs. D. K. Douglas and sons returned from their vacation on Saturday.

Mrs. Grainger is the guest of Mrs. McKay. Edith Selfridge returned to Calgary last Sunday to resume her musical studies at the Conservatory.

The annual meeting of the ratepayers of Burn Bay School District is called for the 16th of January, at 1 p.m. in the schoolhouse.

T. Jordan is back building and storing for next summer. Miss Bartos, who teaches Countess school, is ill at present, and the school is closed.

HUSSAR SHOWS MUCH GROWTH DURING 1928

New Enjoys the Privileges of an Organized Body Defeats Enemies—Battles

HUSSAR, Jan. 9.—As we start the new year it seems just apt to take stock of what the past year has meant to Hussar. It has been a year of growth and development. Nine residences have been erected in different parts of the village. Those are completed by J. R. McDonald, T. L. Montgomery, A. J. Howden, W. C. Resner, W. G. Nelson, A. C. Chigard, H. Steadbury, and S. Volman.

It seems to indicate an increase in population, or at least, comfortable living. There has been much building beside the residences. Geo. Westlund put up a large barn, and the school board has one built at the school. T. A. Hawkshaw built a new house, and George H. O. Brown enlarged his store very materially. H. Warburton added a large bowling alley to his pool and barney shop. Harvey Smith moved a building into town to be used as an office. E. Holland added a large garage to the south of his house. J. Perley built a house which at present is being used as the primary room of the school. The Roman Catholic Church, one of the best modern buildings in town, was completed.

The Ladies' Aid doubled the size of their kitchen and dining room, and the community hall was finished. The R. M. McLean Grain Co. built an elevator, and the Pioneer elevator was enlarged to about twice its capacity. Most signs of the boom are in evidence.

In 1928 Hussar became a village and her first council was elected. Sideways were built from the bank to the post office and to the school. Parking stands have been placed in such a way as to minimize the possibilities of accidents in the village.

1928 has been a good year for Hussar. The new year has been the best yet in the history of the village. It is hoped that among other advantages it will bring electric lighting and an enlargement of the schoolhouse, so that Hussar may continue to be the centre of the primary education for the farming districts adjacent to it.

Owing to the epidemic of flu and chicken pox Hussar school did not open on Thursday, but on Monday, Jan. 7th, with a new principal, H. J. Shoford, of Calgary. Mr. Shoford will not bring his family here until after the June examinations, as his children are attending school in Calgary.

The Atlas school was unable to open as planned, owing to the severe illness of the teacher, Miss Anne Godfrey, of Calgary, but reopened on Jan. 7th.

Raymond Walters left Hussar on New Year's Day to begin work in Queenstown where he has the position of manager of the hardware store owned by Mr. Phillips.

The Ladies' Aid met at the home of Mrs. H. O. Brown on Thursday afternoon. A full account of the meeting will be given next week.

Bob Grey spent several days in Bassano last week at the home of Mr. and Mrs. Clark.

Mr. and Mrs. McGrover returned on Saturday after a holiday trip to their former home, Bow Island.

Mr. and Mrs. Joe Harris and Mrs. W. H. Harris attended the picture show at the "Wings" in Bassano on Saturday night.

Mrs. J. B. Hush and Miss F. Larson motored to Bassano on Saturday and also to "Wings."

Robt. Nichols, who has been assistant at the station for the past few months, and played an active part in the hockey team, left Hussar for Calgary on New Year's Day.

Mrs. A. J. Kodie attended the Skits held in Calgary last week. Mr. and Mrs. MacDonald were Bassano visitors on Friday evening.

The January meeting of the Girls' Club will be held at the home of Mrs. H. O. Brown on Saturday, Jan. 19th. Each member will report to roll call with a proverb, and there will be a program.

The marriage of Miss Grace M. Gilman and Mr. Allan Gately, both of Crowfoot, Alta., was solemnized in Bassano on Thursday, January 10th. The Rev. Canon Hartson was the officiating clergyman.

WEDDING

Gately & Gilman

The marriage of Miss Grace M. Gilman and Mr. Allan Gately, both of Crowfoot, Alta., was solemnized in Bassano on Thursday, January 10th. The Rev. Canon Hartson was the officiating clergyman.

The January meeting of the W. I. M. Club will be held at the home of Mrs. H. O. Brown on Saturday, Jan. 19th. Each member will report to roll call with a proverb, and there will be a program.

The January meeting of the W. I. M. Club will be held at the home of Mrs. H. O. Brown on Saturday, Jan. 19th. Each member will report to roll call with a proverb, and there will be a program.

Young Hockey Stars Defeat Gleichen Boys

Juvenile Team Wins First Game from Gleichen 8-2

The juvenile hockey team scored a victory over Gleichen in their first hockey game of the season, winning by 8 goals to 2.

A fair sized crowd saw the local boys skate to victory at the Bassano rink last Friday evening when they overcame the Gleichen team, and stick handling that swamped the visitors.

The teams were pretty well matched as to size, but the Bassano boys had the advantage of speed and skill, and had the game well in hand most of the time. The play was chiefly in Gleichen territory, and Austin Ford, net guardian for Bassano, had little to do. The visitors put up a stubborn fight, but were overwhelmed by the local boys.

The Bassano line-up, goal, Austin Ford; defence, Albert Cadour and Burton Ford; forwards, Larry Allison, Lloyd Leonard, Geo. Scott; sub, Peter McKee.

The boys are going to Gleichen for a return game Saturday afternoon, January 12th.

It will be a social meeting. All the ladies of the community are invited to be present and to cheer the team.

Miss Evelyn Clifford left on Thursday to resume her work at the University of Alberta, after the holiday vacation.

Mrs. John Lucas is quite ill with flu and scarlet fever.

P. J. Savall and Geo. Campbell were Hussar visitors last week, and attended the dance on Friday.

Mr. McFarlane returned to Winnipeg last week, and Mrs. McFarlane and Mrs. Middleton to Calgary, but Jackie is remaining with his grandparents, Mr. and Mrs. Macdonald.

Mr. and Mrs. Fred Buck motored to Drumheller on Tuesday, where Mr. Buck, who has been on the sick list for some time, received medical treatment.

Mrs. L. Donovan and daughter Louella, went to Calgary on Friday.

Mrs. Herman Larsen and baby son and Ruth Kitchie returned to Hussar on Sunday after spending the holidays at home and at Bassano.

Mr. and Mrs. Billy Treond and Mr. and Mrs. Leonard Knudsen motored down from Calgary on Sunday for a few days.

W. D. McKee, received word on Monday that his father is very ill from pneumonia.

Ayer and Alfred Jensen returned to Staphed on Saturday for a visit with friends in Calgary.

Word has reached Hussar of the birth of a daughter to Mr. and Mrs. Ralph C. Armstrong, at the General Hospital in Calgary, on Monday, Jan. 7th. Ruth Armstrong is ill with diphtheria, and was taken to the isolation hospital on Friday.

Herman Larsen returned to build a house on his quarter section near Adams Lake, east of William Kitchie. Mr. and Mrs. Roy Hulen entertained the Hulen and Jensen families, Opal Hale, and Nels Nelson on Thursday evening.

Mr. and Mrs. Floyd Hulen motored to Staphed on Saturday for a visit but found that Mr. Paul Hulen was ill with the measles, so returned Sunday.

Maya came down from Blind Lake where he is employed in the bank, on Saturday for the week-end with his parents and sisters, and returned on Sunday.

Mr. and Mrs. J. Jensen entertained Mr. and Mrs. Floyd Hulen and Mr. and Mrs. Leo Barnes and Betty Hulen for supper and for the evening, Sunday.

Ray Hosiand, who spent his vacation here with his parents, returned to take up his work at the agricultural station at Olds, the first of the week.

Rev. H. E. Gordon and principal M. J. Hoffer came down from Calgary on the bus Friday evening. They are making their home at present in the house just north of the Community Hall.

DUCHESSE, Jan. 10.—Miss Charlotte Spicer was hostess to the bridge club Monday evening.

P. Larson and R. T. Welch motored to Bassano Monday.

Mr. and Mrs. Lightfoot have returned from Saskatchewan.

The dedication of the Edison Church will be held on Jan. 20th.

The U. P. A. will hold a box supper and dance on Friday, Jan. 11th.

Mr. and Mrs. Carl Slesons and children returned from Billingham, Wash., on Wednesday night.

Blending Red Rose Tea is an art. To obtain the fine flavor and full-bodied richness required years of experience. Every package guaranteed.

Grand Champion steer

Alberta Steer is Sold For a Net Sum of \$12,250

A new record was set for Alberta in the disposal of livestock, the Canadian Red Cross Society, of Lacombe, of Earl Marshall, the steer which recently won the grand championship at Vancouver for a net sum of \$12,250. This steer, which was bred by a Prince Marshall bull, owned by H. Henderson of Lacombe, weighed 3,250 lbs. and was purchased by J. A. Broderick, of Vancouver, at \$1 per pound—the highest price ever paid for an Alberta steer.

Better Health In 1929

A year or two after the close of the Great War, and when it was organizing its peace programme for "the improvement of health, the prevention of disease, and the mitigation of suffering," the Canadian Red Cross Society launched a monthly magazine for the purpose of arousing public interest in the matter of individual, community, and national health. With the cost of this little periodical ceased, and in announcing the cessation of publication, the Red Cross stated that in the intervening years the subject of health improvement and disease prevention had made such giant strides, and so many organizations and publications were devoting their energies to the subject, while almost every daily and weekly paper regularly printed health articles, that the same necessity did not exist for the Red Cross magazine, consequently the money it cost to produce could be devoted to other purposes.

There has certainly been a gratifying increase in public interest in health matters in the years following the war. With all its awfulness, tragedies and enormous loss, the war at least served the purpose of advancing the cause of health. Today, Canada is producing more health than the world, but, even so, there is still vast room for improvement, and that improvement cannot be brought about alone by medical men, governments, hospitals, and health organizations. It rests largely with the individual.

In the past it has been true in a great extent that people only became actively interested in their health when they became sick, notwithstanding the fact that every intelligent person will frankly admit that prevention is better than cure. In all industry in this age special efforts are directed at the elimination of waste and unnecessary costs in business. Yet loss of time, loss of efficiency, loss in production, loss of earnings by the employee and of profits by the employer, loss occasioned by increased expenses to safeguard health—such a routine and added force at this particular time when an epidemic of influenza is again sweeping the continent, although, fortunately, of a milder type than those of some years ago. Influenza is very contagious, but, on the other hand, it can be easily combated through the taking of very simple precautions. If it is not combated at its inception, it may quickly result in serious complications such as bronchitis, intestinal trouble, or pneumonia.

All health authorities are alive to the danger; so, too, are the life insurance companies, and all are engaged in extensive publicity campaigns to acquaint people of the danger and to make known to them the simple precautions they should exercise. Thousands of dollars are being spent in newspaper advertising and other forms of publicity, and it is money well spent that it will, nevertheless, be largely wasted unless the masses of the people to whom these appeals and advice is directed profit by it.

This new year of 1929 cannot be a happy, prosperous year if sickness enters the homes of Canada and if death is the result of the disease, leaving members of the family weakened and liable to contract other forms of disease. Good health is the first essential to happiness. Without it no person, community or nation can be prosperous. The Canadian people and their government are under a heavy burden of time when an epidemic of influenza is again sweeping the continent, although, fortunately, of a milder type than those of some years ago. All health authorities are alive to the danger; so, too, are the life insurance companies, and all are engaged in extensive publicity campaigns to acquaint people of the danger and to make known to them the simple precautions they should exercise. Thousands of dollars are being spent in newspaper advertising and other forms of publicity, and it is money well spent that it will, nevertheless, be largely wasted unless the masses of the people to whom these appeals and advice is directed profit by it.

This new year of 1929 cannot be a happy, prosperous year if sickness enters the homes of Canada and if death is the result of the disease, leaving members of the family weakened and liable to contract other forms of disease. Good health is the first essential to happiness. Without it no person, community or nation can be prosperous. The Canadian people and their government are under a heavy burden of time when an epidemic of influenza is again sweeping the continent, although, fortunately, of a milder type than those of some years ago. Influenza is very contagious, but, on the other hand, it can be easily combated through the taking of very simple precautions. If it is not combated at its inception, it may quickly result in serious complications such as bronchitis, intestinal trouble, or pneumonia.

WEAK, LISTLESS GIRLS

Need Such a Tonic As Dr. Williams' Pink Pills To Restore Health

When a girl in her teens becomes pale and listless, especially if at the same time she shows inclination to the early onset of menstruation, it is a sure sign of a deficiency in the blood or of the blood of such a girl would be deficient in iron. The element Dr. Williams' Pink Pills can supply. But an analysis of the blood is not necessary. The signs are a pallor of the cheeks and lips, dark circles under the eyes, easily tired and breathless after slight exertion. Poor appetite, headache, and sometimes fainting spells; often the patient is nervous and is startled by the least noise. In all run-down conditions there is no other tonic will build up your system so quickly as Dr. Williams' Pink Pills. The statement of Miss Dorothy Lumbard, of Portland, N.S., will bring home to other weak girls. She says: "I was with Dr. Williams' Pink Pills. I had often read of Dr. Williams' Pink Pills and decided to take them. I felt as well and strong as ever. Dr. Williams' Pink Pills will be my constant friend. I feel my blood needs building up again, and I am always first in recommending them to others."

You can get these pills from your druggist, or at \$1.00 per bottle from the Dr. Williams' Medicine Co., Brockville, Ontario.

Canadian Firm Gets Contract

Will Supply R.C.A.F. With Moth Planes To Be Assembled In Canada

The De Havilland Aircraft Co. of Canada Limited has secured a contract from the director of contracts, of the Department of National Defence, for the tender for the supply of Moth aircraft for the re-equipment of the Royal Canadian Air Force. The contract is for thirty-four Moth light aeroplanes, twenty-eight being laid in for the re-equipment of the Camp Borden station. These machines which will replace the old "Lynx Avro" at present in use will be used by the training personnel of the force and for the annual flying courses for probationary flying officers who attend during the summer months at the station. The machines are Moth seaplanes for the equipment of the station at Vancouver.

It is a significant fact that all these machines are to be equipped with the Handley-Page automatic landing gear, the first of its kind in a single piece of the 75321 pound of mail carried.

The Moth will be of the latest metal fuselage type which has been specially evolved for Canadian flying conditions and recently passed all tests at Ottawa with flying colours.

The order includes six engine pipes engines and approximately in value almost \$200,000.

The Moth will be partly manufactured in England, but assembled and tested at the De Havilland Company's plant at Mount Dennis, Ont. Delivery is to be completed by March 31.

Immigration To Canada

Increased By Over 100,000 Previous Year

Immigration to Canada from April 1 to November 30, 1928, amounted to 123,508, compared with 124,362 for the corresponding period in 1927, an increase of 14,226 or 11 per cent. Of this total, 133,958, or 109 per cent, were 49,449, United States, 23,329, Northeastern Europe, 22,633, and other countries 41,877.

Thrift Means Progress

Manufacturing Products From Farm Waste Shows Great Development

Professor C. B. Sweeney, of the Iowa State College, says that no less than 3,000 known industrial products can now be manufactured from such farm waste as corn cobs, corn stalks, cottonseed hulls, peanut shells, and straw. Various plants, trees and vegetable refuse, such as alfalfa, good substitutes for ivory, amber, leather, insulating materials and wool as well as explosives, silk, thread, lacquers and photographic film.

Tholugen, a by-product of wood pulp manufacture, can be passed through a soft fat or oil and produce a hard fat comparable in value to hard "magnane," the residue of the case from which sugar has been squeezed, is utilized in the manufacture of wall-board. In countless other ways this waste material is developing, and all are participating in the benefits. Wherever there is thrift, there is progress, whether the individual saves by depositing his savings in a bank or a nation saving ways and means for turning into products of value material that formerly were wasted.

The Air Mail Service operated by the Western Canadian Airways Ltd. for the Canadian Post Office Department into mining districts of Ontario, Ontario and Manitoba, this year was 100 per cent efficient. One hundred and two trips to the "camp" were on the schedule and all were made without delay. The loss of a single piece of the 75321 pound of mail carried.

Federal Parliament Will Assemble On Thursday, Feb. 7th

Ottawa.—Parliament will open on Thursday, February 7. Official announcement is to be made tomorrow by Premier King at the conclusion of a meeting of cabinet council.

The Prime Minister stated that no appointments to governmental vacancies were made at the sitting of the cabinet.

Hon. R. E. Bennett, Conservative leader, who is now in Europe, will return to the capital about the middle of this month. Mr. Bennett sailed for England two weeks before Christmas on a brief holiday prior to the opening of parliament.

Political prognosticators forecast that the session opening next month will be much livelier than the previous one. With occasional exceptions the air of a possible general election next fall, the likelihood is that debates in both the commons and the senate will be somewhat more spirited.

No intimation has been made to effect elections though, on the possibility of electing this year. Two general elections have been held in the Dominion during the past few years, one in 1925 and the last one in 1929; and there are many political observers who lean towards the opinion that no further appeal will be made to the people before 1930.

The budget, it is understood, will be brought down early during the coming session. Presentation of this document, however, is subject to the government's fiscal policy with any changes to be made in the latter always eagerly awaited.

Indications are that the coming session of parliament will run well into June. While the legislative program of the government has not been indicated, a number of important matters are definitely scheduled to come before parliament for necessary action.

Recently, Hon. Charles Stewart, Minister of the Interior, announced that a bill for the return of natural resources to British Columbia would probably be introduced in the course of the approaching session.

Provisions for the return of natural resources to Alberta are also well advanced, and legislation may possibly be also introduced in the case during the session. Premier J. C. Gair, of Saskatchewan, is due to arrive in the capital early next month to discuss the question of the return of natural resources to his province.

The whole question of the stimulation of immigration to Canada will likely receive attention.

Monoplanes Reach Hudson Bay Coast

Current Supplies From Cochrane, Ontario, To Eight Prospects At Winnipeg.—Two super monoplanes of the Northern Alberta Minerals Exploration Company have arrived on the east coast of Hudson Bay, near Richmond Gulf, after a flight from Cochrane, Ont., where they left on Dec. 29. The planes were piloted by Captain H. A. (Doc) Oakes and Patrick Field, who were accompanied by two mechanics. The purpose of the flight was to bring supplies to eight prospectors who have been stationed on the east coast of Hudson Bay since early summer.

New Commander For Rangers

Ottawa.—Included in the promotions announced by the department of national defense is that of Major E. Poole to the rank of lieutenant-colonel, and to command the Rocky Mountain Rangers, with headquarters at Kamloops, B.C., vice Lieut. Col. T. Aldworth, who has been transferred to the reserve of officers.

New Air Marshal Appointed

London, Eng.—Sir John Maitland Salmon, air marshal, has been appointed chief marshal of the Royal Air Force in succession to Sir Hugh Trenchard, who resigned December 20. Sir John Frederick Higgins, air vice-marshal, will be promoted to Sir John Salmon's rank.

Tenipet in Japan

Tokyo.—Seven hundred horses were reported destroyed, 50 persons killed and scores injured by storms on the Kondo coast, southwest of Niigata. Tornadoes, which the railway department here that at least 20 villages were inundated by the high seas.

W. N. U. 1767

To Preserve Niagara Falls

Treaty Is Signed Between Canada and United States

Ottawa, Ont.—The construction of remedial works on the Niagara River designed to distribute the water so as to ensure at all times unbroken crestlines on both Canadian and American Falls, is provided for by a treaty between Canada and United States which was signed at the office of the Prime Minister here.

In addition to providing for the construction of these works, provision is also made that each country may divert an additional 10,000 cubic feet of water per second for power purposes. These diversions will be permitted only during the winter or non-tourist season, beginning on the first day of October and ending on the last day of March of the following year.

The treaty was signed by Right Hon. W. L. Mackenzie King, acting in the capacity of plenipotentiary for the Dominion of Canada, and by Hon. William Phillips, United States Minister to Canada, as plenipotentiary for his government.

Revising Regulations On Incoming Autos

Officials At Ottawa Welcoming Opinions On Existing Restrictions

Ottawa, Ont.—Business men of Western Canada are taking an active interest in the revision of the Customs regulations in regard to the entry from the United States of automobiles.

The Department of National Revenue has been engaged for some time in the re-drafting of these regulations with the purpose of removing objectionable restrictions on incoming automobiles, and such has been the interest and enthusiasm in the west that the work has been delayed temporarily until all representations have been received.

Many board of traders have written to the department, and the officials are welcoming every expression of opinion. Every effort will be made to "redraft" the regulations so that they will be acceptable.

Langsner Leaves Canada

Man Who Investigated Ambrose Small Case, Has Gone To West Indies

Toronto.—Dr. Adolph Maximilian Langsner, who investigated the Ambrose Small case here some weeks ago, has gone to the West Indies and later will go to Mexico. These travels are presumably more sympathetic to his theories and methods than Canada whose authorities, as Langsner has previously stated, have a disinclination to renew his immigration permit as a visitor in this country.

As on his previous departure from Toronto, he promises to return, make sensational disclosures regarding the Small case, and "solve the mystery in spite of all that can be done."

Influence was brought to bear by his enemies and opponents in the Small case, he said, before his departure, with the object of preventing him continuing his investigation of the mystery.

Early Seeding

Marquette Wheat Sown At Indian Head On January 2nd

Indian Head, Sask.—Saskatchewan in past years has been noted for the creation of records, some of them strange and unusual, and on the second day of 1929, another was added, that will stand for some time.

This was the seeding of spring wheat, five acres of Marquette being planted on an experimental plot at the experimental station farm. At 7 o'clock, the superintendent ordered his men and teams out, and according to information given Wednesday afternoon, the five acres were seeded before dinner.

The land, summer-fallow, was in excellent shape, and the wheat was buried to quite a depth.

British Members Nominated

London, Eng.—The British government has nominated Sir Josiah Stamp and Lord Revelstoke as the British members of the projected committee to investigate the reparations claims of the two deputy members will be announced later.

Was Pioneer Railroad Builder

Pat Welch, Well Known In West, Dies In California

Spokane, Wash.—Pat Welch, 70, member of the firm of Stewart and Welch, railroad builders, died recently at Coronado, California, a telegram to relatives here said. Mr. Welch, who had gone to California for his health last summer, had been ill for nearly four years.

Associated with Major General John Stewart, of Vancouver, B.C., Welch had a part of the construction of many railroads in the northwest with General Stewart, built many contracts in the United States and Canada, Great Britain and Africa.

The Flu Scourge

Epidemic Most Severe In Nova Scotia and Ontario

Ottawa, Ont.—Ontario and Nova Scotia are the two provinces of the Dominion where the ravages of the flu are most severe at present, declared Dr. J. A. Amoyt, deputy minister of health, but the visitation of the scourge this winter is by no means as serious as those of 1918, 1919, and 1926.

The complications which accompanied the malady in those years have not been present to such an extent in the present epidemic.

Economic Life OF GERMANY IS REPORTED SOUND

Berlin.—Confidence in Germany's economic soundness is the dominant note in Agent-General Seymour Parker Gilbert's report for the fourth reparations annuity year made public Tuesday.

The report paints a complimentary picture of Germany's entire economic life. The agent-general testifies to Germany's punctilious payments of all sums due on the reparations accounts and describes Germany as placing the product of her science, skill and labor at the disposal of creditor nations in an effort to pay for the war.

With reference to payments for the current annuity year the report forecasts that "no question can fairly arise, in the light of practical experience thus far, as to the ability of the Reich to provide the full amount of its standard contribution of the plan."

The report states that the payments and transfers during the year amounted to 129,000,000 gold marks (about \$440,000,000).

The report proceeds to show that the total annuity of the fourth year was almost one and three-quarter billion marks, of which France receives more than one billion (about \$250,000,000).

The list of creditors included France, Great Britain, Italy, Belgium, Yugoslavia, United States, Greece, and Poland.

FAVORITE PHOTOGRAPH OF PRINCE

Princess Margaret, Princess of Wales

Princess Margaret, Princess of Wales, is shown in a photograph taken at the wedding of the Prince of Wales and the Duchess of York. The photograph shows the young couple standing together, with the Prince of Wales on the left and the Duchess of York on the right. They are both smiling and looking towards the camera.

Here is reproduced a photograph of the Prince of Wales which was taken from the Illustrated London News. This picture is declared to be the favorite of the young man who recently returned from the big game haunts of Africa to the sick room of his father, King George.

HEADS NATIVE SONS

Difference of Opinions Within the Ranks of Salvation Army

London, Eng.—For the first time both parties within the Salvation Army have openly admitted that the high council which will meet shortly was composed of two opposite camps. Officials at the international headquarters and at the headquarters of Evangeline Booth, head of the Army in the United States, freely made propositions on the probable result of voting when the question of removal of General Bramwell Booth as commander-in-chief, and reorganization of the Army will come up.

An official of the Evangeline Booth group stated that after a careful canvass the reform was satisfied more than the necessary three-quarters majority of the council will vote for the removal of General Booth and subsequent reorganization.

At international headquarters those who are supporting General Booth refused to make a positive statement as to the other camp, saying that they were sure of at least seven votes, and that they believed the council would vote in accordance with the general will of the members.

They said, however, the method of choosing a successor, and other administrative reforms, might be effected, and that even certain of those who would support the general would favor such a change.

Prisoners Help Fund For Distressed Miners

Heard Appeal Made By Prince On Christmas Day

London, Eng.—Evidence is fast accumulating that the added impetus given the lord mayor's fund for relief of families of distressed miners by the personal appeal of the Prince of Wales broadcast by radio on Christmas Day. The fund now amounts to nearly \$200,000, exclusive of the governmental contribution which is to double it.

The governor of a certain prison has sent along \$500 from the prisoners who heard the Prince. Many letters received at the headquarters of the fund, the Mansion House, are addressed to the Prince personally.

Canada's Trade With U.S.

Best Customer Last Year Says Bulletin Issued At Washington

Washington, D.C.—Canada literally purchased a little of everything American manufacturers had to offer during the first few months of 1929, and may have "bought the Brooklyn Bridge" if Uncle Sam offered such a structure for sale.

This makes the substance of "our world trade," says a bulletin issued by the foreign commerce department of the Chamber of Commerce of the United States. It stated that the Dominion was the best customer of the United States during the designated period.

Famous Analyst Dead

Ottawa.—Dr. Anthony McGill, M.A., B.Sc., LL.D., F.R.G.S., formerly chief Dominion analyst, is dead at his home in Berkeley, Calif., according to word received in Ottawa by relatives. His death occurred on Saturday, December 29. He was 81 years old. Dr. McGill was one of Canada's most prominent chemists and was an outstanding figure in scientific circles.

Two Opposite Camps

See Difference of Opinions Within the Ranks of Salvation Army

London, Eng.—For the first time both parties within the Salvation Army have openly admitted that the high council which will meet shortly was composed of two opposite camps. Officials at the international headquarters and at the headquarters of Evangeline Booth, head of the Army in the United States, freely made propositions on the probable result of voting when the question of removal of General Bramwell Booth as commander-in-chief, and reorganization of the Army will come up.

An official of the Evangeline Booth group stated that after a careful canvass the reform was satisfied more than the necessary three-quarters majority of the council will vote for the removal of General Booth and subsequent reorganization.

At international headquarters those who are supporting General Booth refused to make a positive statement as to the other camp, saying that they were sure of at least seven votes, and that they believed the council would vote in accordance with the general will of the members.

They said, however, the method of choosing a successor, and other administrative reforms, might be effected, and that even certain of those who would support the general would favor such a change.

The canvass indicated that widespread delays in some sections. Several operators, however, stated that burning of common stubble and straw would result in increased yield from free weeds and in several instances had increased the yield from two to six bushels an acre.

Resolutions Urge The Establishment Of Air Mail Service

Calgary, Alta.—Resolutions requesting that the post office department should establish an air mail service in Western Canada, connecting all the principal cities, and that the Dominion Government should help to bear the expense of lighting air ports, which would result from air mail service, were passed at the air conference held here, at which several western cities were represented.

Mystery Of "Crank" Letters Cleared Up

Were Traced To Clerk In New York Post Office

New York.—The arrest of Abraham Rosenberg, 27, a clerk in the main post office here, has cleared up the mystery of "crank" letters received in the last few years by President Coolidge, Vice-President Davis, former Governor Smith, and other dignitaries, postal authorities announced.

Postal inspectors said they found 1,500 letters, all of a threatening nature, at Rosenberg's home.

Rosenberg dropped his last letter down a chute in the main post office. It was traced to him and the threatening letters were found in his home.

Rosenberg, postal men say, threatened "action" after some development as the sinking of the submarine S-4.

Change Name Of Ancient City

Peking, China, Now To Be Known As Peking

Peking, China.—The Nanjing government post office department has changed the name of the ancient city of Peking, which is now known as Peking.

The name Peking signified "Northern Capital," and the Nanjing government did not wish that meaning to apply to the city from which Northern armies had been driven.

At first the spelling adopted was "Peking," pronounced "Pee-king," and meaning "Northern Peace." It was later ruled that Peking would be correct.

Senate Editor To Retire

Albert Horton Quits Office After Fifty Years' Service

Ottawa.—After half a century of service, Albert Horton, editor of Senate debates in Canada's parliament is retiring. His office was succeeded by David Hurlbut, at present of the Senate House staff.

Mr. Horton has been a familiar figure on parliament hill since he was brought here in 1877 by Hon. George Brown. He reported the proceedings in the Senate for the Toronto Globe.

EFFICIENCY OF NEW COMBINES AMPLY PROVEN

Latest Statistics, Compiled by the Federal Department of Agriculture, Show That "Crop" Which 112,000,000 Acres Have Already Been Invested in This New Harvesting Machine by Farmers of the Prairie Provinces. It is also estimated that more than 3,200,000 acres of grain were cut and threshed during 1928 by the new method.

Saskatchewan, the premier grain producing province of the Dominion, leads in the number of combines in use with a total of 2,356. In Alberta 1,690 machines were in operation while 206 were introduced in Manitoba.

Extensive experiments with the combine have been conducted by the federal department. Data has also been collected from owners scattered throughout the Dominion. From this information it has been established that very little trouble is being experienced in operation of the combine and that grain kept without loss in grade or milling quality.

The survey further revealed that harvesting with combine resulted in an approximate saving of eight or nine cents per bushel. A number of owners reported a saving of grain averaging 2 1/2 bushels per acre and that better grades were received than for binder harvested grain. A few received lower grades, which was a majority of users noted no difference.

The canvass indicated that widespread delays in some sections. Several operators, however, stated that burning of common stubble and straw would result in increased yield from free weeds and in several instances had increased the yield from two to six bushels an acre.

The Gaffer and the Links
The stout lady got on a street car
and put a parcel of "sausages" beside
her. A young man in "knickerbockers" got
in at the next stop and sat down on
the edge of the parcel.
Turning to him she said: "Excuse
me, but do you play golf?"
The young man, somewhat taken
aback, said he did.
"Well, would you mind getting off
my links, then?" asked the stout lady.
A Moment
First Housewife: "I suppose you
carry a number of some sort in this
lucky of yours?"
Second Housewife: "Yes, it is a lock
of my husband's hair."
"But your husband is still alive?"
"Yes, but his hair is gone."

THE BASSANO MAIL
Published Every Thursday
Walter A. Smith
Editor and Publisher
Subscription—\$2.00 a year in Canada
\$2.50 to the United States

A girl in New York talked con-
tinuously for forty-two hours in a
talking marathon. This is one field
of competition where mere man
hasn't a chance.

King Alexander of Serbia is said
to be now the most absolute mon-
arch in the world, with complete con-
trol over every department of state.
He may be absolute ruler of his
country, but we'll bet when he's home
the messia has something to say
about where he drops his cigar
ashes.

An American delegation, headed
by Admiral P. C. Billard, chief of the
coast guard service, is now in Ottawa
interviewing Canadian officials with
regard to the matter of liquor sav-
ings to and from the United States.
It is considered an accurate estimate
that more than 90 per cent of the
liquor consumed in the prohibition
country south of the 49th parallel is
produced within its own borders. It
would seem then, that the chief
problem in the control of the liquor
traffic in the United States is to cur-
tail manufacturing by the people of
that country.

THE CIVIC
ELECTION
The term of office for Mayor H. O.
Bredin and three members of the
Bassano town council has expired.
The three councillors are A. McKee,
E. P. Currie, and Mr. Playfair.

Nomination day is Monday, Feb.
4th, and election day, if an election
is held, is Monday, Feb. 11th.

Mr. Bredin has served in the
capacity of mayor of Bassano for a
good many years. Mr. McKee, Mr.
Currie, and Mr. Playfair have also
served on the town council for a
number of years. Without resorting to
platitudes or flattery, it can hon-
estly be said that these four men
have faithfully, conscientiously and
efficiently carried out their duties in
the offices to which they were elected.
Together with the other members of
the council, they have succeeded in
lifting the town out of a grouch of
debt and placing her in a position
where all liabilities can be paid off
without burdening the tax payers.
They have reduced the taxes, brought
about many improvements in public
works, and carried on the affairs of
the town in a sound, business-like
manner.

They are good, capable men, and
worthy of re-election.

THE SMOOTH
STOCK PROMOTER

Every once in a while a salesman
breeds into town and offers the pub-
lic what he calls a real money mak-
ing proposition. He has for sale
stock in some newly organized com-
pany which is going to manufacture
a newangled device for automobiles
or a patent doghouse, or perhaps he
sells stock in a pure bred Persian
Pup farm, or choice residential lots
in Utopia.

This notorious tongue-dancer
has a somewhat convincing line of
talk, and manages to "foist" some of
his worthless stock on the unsus-
pecting public. He tells you he has
a gilt edged proposition, but it is
really only a clay idol gilded over.
A few months ago a salesman sold
pure bred hogs to many farmers in
Alberta, getting a very fancy price
for them. He promised the com-
pany would buy back from the farmer
all the offspring of these animals,
and quoted a high figure which the
company would pay. Many farmers
bought these hogs. In some cases a
part cash payment was made, and
the animals were never delivered.
Every man who purchased the hogs
lost money on the proposition.

This is an example of how these
high pressure salesmen and smooth
stock promoters fool the people. A
few, a very few, of these propositions
are of any value—perhaps one in a
hundred. So it is ninety-nine to one
that you will lose.

Before handing your money over to
a stock salesman, consult your bank-
er. He is a sound business man, and
you will not go far wrong if you fol-
low his advice.

THE WEATHER
As a topic for discussion the
weather is much overdone. Friends
meet on the street and say, "Fine
day," "Nice day." Someone else
comes along and says, "Great weather
we are having." In a group of
people the conversation will lag,
and then somebody says, "Isn't this
wonderful weather?" or "It looks
as though it would snow."
But the people of the wheat grow-

ing belt can be pardoned for so much
discussion of the weather. It is of
paramount importance to them. A
good heavy rainfall during the grow-
ing period of the wheat crop is of
incalculable value. It is worth
millions of dollars, and may bring
prosperity when they are faced with
silt and hardship because of lack of
rain. And so the weather, to the
millions of the wheat belt, has a
direct and vital bearing on our
lives, and it is discussed frequently
and at great length.

In view of the most unusual pe-
riod of mild weather which we have
experienced this winter we feel that
he subject is worthy of some com-
ment. The winter of 1922-23 will
go down in history as one of the
mildest ever known in Alberta. Even
though the remaining weeks of
winter be bitterly cold, the balmy
right days of the early part of the
season will stand out in the memory
if Alberta citizens, and old timers
of 1850 will recall their experiences
of the mild winter "way back in
1922-23."

"Yes, lovely weather we are
having."
A HERO
His coat is unadorned with gold.
He wears no sword, no medals
bright;
His overalls are patched and old.
Yet I beheld him in the night
surpassing crimson cloth and braid.
Too grand for helmet, shield or
spur.
With lantern, bending down to aid
A MANKY CUR.

and all using he spends his days.
Content to bear a simple name,
Too great his heart to covet praise,
Too high his soul to stoop for fame,
Growth and courage, behold he stands
With dusty cap and tumbled hair.
Then kneels to soothe with tender
hands

A dying man.
Methinks how startled he will be
When voices greet this hero dead;
With dusty cap I seem to see
Him shy, before the throne of God,
"Surprised that anyone should know
The name of his hidden sight,
When helpless creature suffered so,
With patient eyes.

Wrong Postboards
Mrs. Henpeck (sarcastically): "I
suppose you've been to see a sick
friend—holding his hand all even-
ing!"
Mr. Henpeck (sadly): "If I'd been
holding his hands I'd have made
some money."

"He Talks"
Rastus: "Here, am a telegram
from de master in Africa, stating he
am sending us some 'home' talk."
Circus Owner's Wife: "Lissen,
talls, Rastus? What are you talking
about?"
Rastus: "Well, read it yo'self. It
says plain, 'Jes captured two lions;
sending details by mail.'"
Path of Peace
have no luck with women."
"Lucky fellow!"

Bassano and Hussar

Local News

Ed Bell was a visitor from Hussar on Wednesday.

Jack Ogilvie was in from north of the Red Deer river on Thursday.

Ralph Armstrong, Wheat Pool field supervisor, was in Bassano Thursday.

A. Griffin, C. P. R. D. N. R. chief at Brooks, was in Bassano last Saturday on a tour of inspection.

Mrs. J. W. Bulmer, left on Thursday of this week to spend a vacation in and near Spokane, Washington.

Miss Lactance Desharais, of Medicine Hat, visited this week with Miss Cecelia Ravey.

A baby girl was born to Mr. and Mrs. Ralph Armstrong, now of Calgary, on Monday, Jan. 7th.

Miss Lillian Hayes, who is spending a vacation with her parents in Calgary, visited with her sister Mrs. J. W. Bulmer on Thursday.

The Church of England will hold the annual parishoners' meeting in the church on Monday evening, Jan. 14th, at 8:00 o'clock.

The Bassano Women's Institute will hold their next meeting in the Oddfellows' Hall on Wednesday, January 16th, at 3:00 p.m.

School Inspector J. F. Boyce is back in Bassano this week. He has been in the Red Deer district during the past few weeks.

Mrs. Wm. Noble and children, returned to Bassano on Monday after visiting for the past few days with Mr. and Mrs. Porritt, at Drumheller. Mrs. Noble's parents.

Mr. and Mrs. F. Blunden, of Calgary, E. Corbett, of Barons, Mr. and Mrs. Greer, of Arrowwood, were visitors to Mrs. Corbett, who is a patient in the hospital here.

Ben S. Plamer, with L. Hutchinson, Wheat Pool director from Camrose, is at the Pacific coast on a tour of inspection of the pool terminal elevators.

E. A. Beck left on Monday for Toronto, Ont., to attend a conference of Sun Life managers and district managers. He will be away ten days or two weeks.

J. Wootman is a business visitor to Calgary this week.

Miss K. Napier, of Calgary, visited over the week-end with her sister, Mrs. J. R. Donaldson. Miss Napier just returned from a trip to England.

Rev. P. C. McCrae, who came here from Waskiaivis, preached his first sermon as pastor of Knox Presbyterian Church last Sunday evening to a fair sized congregation. Service will be held next, and every following Sunday evening, at 7:30 o'clock. Sunday school at 11 a.m.

Just His Size

In amusement I watched the train of sea do his stunts. "Did you educate that sea yourself?" I asked. "Yes," he replied proudly, "I raised that sea from a pup."

SUCCESSFUL SEASON IN SUGAR BEET INDUSTRY

Over 100,000 bags of sugar have been manufactured during the past season in the plant of the Canadian Sugar Factories Limited at Raymond according to a recent announcement by the manager, T. G. Wood. It is estimated that the expenditure made yearly in this industry in Alberta averages over \$500,000, the factory employing during its peak of production from 500 to 300 men. Approximately 37,000 tons of beets were harvested and growers have received an initial payment of \$7 per ton which it is expected will be supplemented by further payments during the winter months. A total price of \$2.15 per ton was paid for beets delivered to the factory in 1927. During the past season an average yield of 7.5 tons per acre was secured, the beets having an average sugar content of 12.5 per cent. Mr. Wood in his statement expresses the belief that the average sown to beets in 1929 will exceed that of any previous year.

HOMESTEAD RECORDS BROKEN IN 1928

Breaking all previous records since the office was opened, 2,590 homesteads and 134 soldier grants were filed on in the Dominion Lands Office at Edmonton in 1928, according to figures issued by A. Norquay, Dominion Lands Agent. The corresponding figures for 1927 are 1,354 homesteads and 39 soldier grants. During the month of December, 1,154, 400 quarter sections were filed on as compared with 107 for the same month in 1927. Similar increases have been shown in the filling of all other land offices in the province, particularly marked gains having occurred in the entries made at the Grande Prairie and Peace River offices.

FARMERS URGED TO SECURE SEED OATS

Farmers throughout the province are being advised by the Provincial Department of Agriculture to make the necessary provision for securing the supply of oats for seed which they will require for their 1929 crop. The effects of frost in a number of districts are reflected in a reduction in the germinating quality of a great many of the oats threshed, and in a number of cases, supplies of oats suitable for seed will have to be shipped in. Elevator companies have expressed their willingness to assist in the distribution of good seed, and farmers are advised to communicate with their local elevator agents as early as possible in order to obviate the possibility of a scarcity occurring during the seeding season.

Beating the Game

A farmer received a crate containing some fowls. He wrote to the sender informing him that the crate was so badly made that it had come to pieces when he was taking the hens home with him, and they had all escaped, and after much searching he had succeeded in finding only eleven of them. In due course he received the following reply: "You were lucky to find eleven hens, because I sent you only six."

THE FARM LIBRARY

(Experimental Farms Note)

The farm library should provide inspiration, recreation and instruction to meet the ever-growing needs of each member of the home. This is a very wide order, as tastes and requirements differ, and change constantly from childhood to maturity. The books that find a permanent place in the farm library should be individually chosen and treasured because they have supplied some need in the development of the home life. The home library that is most cherished is the one that is slowly built up by getting a book at a time that really fills a need in life. We all know the place that a few treasured books have taken in our own lives. The characters in these formed our ideals; they taught us how others have lived, loved, toiled, striven against odds that formed character, and developed 'new men' whom honored not only in their day and generation but throughout all time. We know from the biographies of great men, how books helped them live into paths that led to honor and distinction. Librarians who live among books give you a great deal of assistance. Make friends of them; tell them your requirements, get them to give you the names and addresses of reliable booksellers and publishers. Get them to show you how to make the best use of the great loaning libraries, civic, provincial and federal. In this way you can frequently have a chance to read a book before buying it. This is a great aid in choosing the right one for the farm library. Librarians can, as well, suggest magazines that contain reviews of books worth having. Publishers are glad to send their catalogues to interested people; through these you may locate books that are worth while, books that seem like old friends, as you go back to them from time to time.

In this way the farm library will grow up with the family and contain story books, biographies, poetry, history books, books on religion, travel, invention and science. Among the books of science those on agriculture will have a convenient shelf by themselves, for they are invaluable tools that lighten our every task in the great workshop of farm life.

REWARD WHEAT TO BE DISTRIBUTED

Two hundred bushels of the new "Reward" wheat are being distributed among one hundred settlement board settlers in the southern half of the province, it is announced by W.

S. Woods, District Superintendent of the Land Settlement Board, Calgary. Each settler is limited to two bushels of this wheat for which a charge of \$2.00 per bushel will be made. Very satisfactory results have been secured, states Mr. Woods, from the quantity of Reward wheat which was distributed similarly three years ago.

We Sell Farm Lands

We have many enquiries for farm lands from Western Canada and United States. If you want action in selling, give us particulars of your farm.

WORLD HAPPENINGS
BRIEFLY TOLD

The preparatory commission for a disarmament conference has been scheduled to meet at Geneva on April 13.

Dr. J. D. Maclean, former premier of British Columbia, has taken the important post in the federal department of finance at Ottawa.

At a meeting of the selection committee in Winnipeg, Lawrence C. Montagu was selected as Manitoba Rhodes scholar for 1929.

English "with no American tinge" will be the world dominating language, Professor R. D. Nicholas, Poland stated at the Modern Language Association meet, in Toronto.

Rudyard Kipling celebrated his 63rd birthday on his estate "Batcombe" and the following day joined in celebration of his wife's 83rd birthday. Both days were spent quietly.

President Emilio Portes Gil believes that prohibition would benefit Mexico but he will attempt to wean the people from alcohol by means of education rather than by a sudden and severe law.

A new record for grain exports was established by the export of wheat from the 1928-1929 season, when 202,575,931 bushels were exported, an increase of 17,504,444 bushels over 1927.

The well-known London chemist Hilson Jones, announced recently the discovery of a new gas, so deadly that it would make a man die of national suicide. Jones said the gas causes death instantly with the slightest inhalation.

Two new passenger steamers for the Canadian Pacific steamship night service between Vancouver and Victoria have been ordered by the company. The new boats are to be delivered in 1930, and will each have sleeping accommodation for 425 passengers.

The annual Lewis gun competition of the Dominion of Canada Rifle Association has been awarded to the gun team representing the Company, Government-General's Foot Guards, at Ottawa. The competition was inaugurated in 1925, and has since then been held throughout the Dominion.

Concludes Greatest Year

Production in B.C. Industries Reaches Quarter Billion Mark

The year 1928 was by far the greatest in the history of British Columbia. The production of the province's four great industries, lumbering, agriculture, mining and fishing for the first time broke the quarter billion mark.

A conservative estimate, based on preliminary returns so far available to the government, would place the output at \$251,500,000, an increase of \$6,977,338 over the total for 1927, but further, especially from the lumber industry, only easily over this a million or more.

More Effective Danger Signs

A. Hamilton, teacher of the danger signs are based on the wrong psychology. Tell a man to "Stop, Look, Listen" and he is impelled to do none of the three.

He suggests the following railroad crossings: "Cross ahead. You're Unimportant."

"Don't stop. They satisfy."

"Try stop. Nobody will miss you."

"Take a chance. You can get it by a train only once."

Copper in Northern Canada

The deposits of copper in the Arctic region of Northern Canada, although at present inaccessible, possibly constitute one of the great copper reserves of the future.

Grain Dealers and Pulpitmen

There are in the Maritime Provinces about seventy grain dealers from which grain dealers and pulpitmen have been furnished.

A Famous Navigator

Plans Being Made at Coast For a Monument To Captain Vancouver

Plans are being laid to raise money in Vancouver for the erection of a statue in honor of the famous captain who gave his name to the American Pacific coast, Bays of the Vancouver Province. "We cannot emulate the imposing scheme of the statue of Liberty. We can only hope to spend a million dollars on our Captain Vancouver as the United States has done with their 235-foot high lady of the torch. But our Captain Vancouver should stand a memorial and a symbol, guarding our local habitation and our name, rising out of our sea to be a witness for us that we know of them that laid our foundations. It should stand somewhere at the entrance of the harbor, in a high place looking down upon the ships as they pass, a landmark for the mariner by day and a beacon light by night, visible far out in the Gulf."

When it appeared that the whole scheme was to prove a failure and governments would not put up more money, British capital became interested and the moneyed men agreed to spend another large sum in experimental work at the plant, and, if successfully, to take over the plant for one dollar. Ernest Dury, generally considered the ranking industrial chemist in the British Empire, was placed in charge and, according to latest advice, has produced a type of briquette that is considered superior in every way.

One of every 2,000 children in England is affected by weak blindness or the inability to read and spell.

Briquetting Plant

New Fuel To Shortly Appear On the Saskatchewan Market

After more than nine years, during which more than a million dollars was spent in plant equipment and experimentation, a new fuel is shortly to appear on Saskatchewan markets.

It was March 20, 1918, that the order-in-council was passed, which gave the Saskatchewan Ministry the right to the Lignite Utilization Board of Canada. That body worked for years in an effort to produce a briquette from the vast stores of lignite in southern Saskatchewan, concentrating on a vast plant at Hiram.

The original vote was for \$400,000, the federal government supplying half and the Saskatchewan and Manitoba governments supplying one-quarter each. After that fund was exhausted Manitoba dropped out and Saskatchewan and the federal government carried on.

The grand total by governments, many thousands of which went into experimental equipment that had to be discarded, was \$1,030,000.

When it appeared that the whole scheme was to prove a failure and governments would not put up more money, British capital became interested and the moneyed men agreed to spend another large sum in experimental work at the plant, and, if successfully, to take over the plant for one dollar. Ernest Dury, generally considered the ranking industrial chemist in the British Empire, was placed in charge and, according to latest advice, has produced a type of briquette that is considered superior in every way.

FAMOUS CATTLE BREEDER

M. J. Tuttle, of the Western Canadian Stock Farm 1929

M. J. Tuttle, superintendent of the Experimental Farm at Brandon, was elected president of the Western Canadian Stock Farm for the season 1929. The society met in the University at Brandon.

Dr. J. B. Harrington, of the University of Saskatchewan, was elected vice-president.

A letter to Secretary Lansing from Dr. Henry Van Dyke, United States minister at the Hague, dated September 7, 1918, reports a conversation held by Van Dyke with Lord Curzon, with Sir William Tyrrell, secretary to Sir Edward Grey, British foreign minister. Tyrrell had talked with him, "apart and confidentially," at a dinner on September 1, with six friends, Dr. Van Dyke said, and with such evident intention that I feel you should know what he said.

The substance of the conversation, as noted by the American minister, follows:

"He felt that Great Britain could not possibly consider any peace proposition which did not include as a first term the full restoration of Belgium and Northern France. If I understood him correctly, he believed that complete peace was impossible so long as Germany should also be made. After that, he said, he thought a 'league of nations' should be formed to prevent the recurrence of such a war as this, to guarantee the respect of established neutrality and the maintenance of the general principles embodied in the Hague conventions and to punish future infractions and violations. He said that, in his opinion, the United States were favorable to an idea of this kind, his good offices, mediation (call it what you like) would be welcome when the consideration of terms of peace became possible."

Visitor (surveying room): "This was hardly what I was led to expect from your advertisement."

Landlady: "Well, you ain't the gentleman I thought you was from your letter."

First Suggestion For League Of Nations

In 1915 Sir William Tyrrell Proposed Its Establishment To Prevent A Recurrence Of War

The first mention of a "league of nations" as a medium for possible world peace to occur in United States official correspondence appears in documents covering foreign relations in 1915, made public by the state department.

A letter to Secretary Lansing from Dr. Henry Van Dyke, United States minister at the Hague, dated September 7, 1918, reports a conversation held by Van Dyke with Lord Curzon, with Sir William Tyrrell, secretary to Sir Edward Grey, British foreign minister. Tyrrell had talked with him, "apart and confidentially," at a dinner on September 1, with six friends, Dr. Van Dyke said, and with such evident intention that I feel you should know what he said.

The substance of the conversation, as noted by the American minister, follows:

"He felt that Great Britain could not possibly consider any peace proposition which did not include as a first term the full restoration of Belgium and Northern France. If I understood him correctly, he believed that complete peace was impossible so long as Germany should also be made. After that, he said, he thought a 'league of nations' should be formed to prevent the recurrence of such a war as this, to guarantee the respect of established neutrality and the maintenance of the general principles embodied in the Hague conventions and to punish future infractions and violations. He said that, in his opinion, the United States were favorable to an idea of this kind, his good offices, mediation (call it what you like) would be welcome when the consideration of terms of peace became possible."

Visitor (surveying room): "This was hardly what I was led to expect from your advertisement."

Chancellor

CHANCELLOR, Jan. 5—Chancellor school opened last Thursday after quite a long holiday. Most of the children have recovered from their recent illnesses, and it seems to be the grown-ups turn now.

The Chancellor boys' orchestra entertained at a winter drive and dance in the Memorial Hall last Friday evening. Mrs. E. Young won the lady's prize and H. Brown the gent's prize. The dance following was greatly enjoyed, the boys providing the music with a splendid orchestra. Supper was served, and everyone reported having thoroughly enjoyed themselves.

The post office business was transferred to its new location last Saturday.

Mr. and Mrs. Harry Chamney were hosts at a charmingly arranged New Year's Eve dinner and bridge party. Covers were laid for fourteen guests. The house was beautifully decorated with Christmas favors, holly, and mistletoe. The table was beautifully arranged with a new year's cake as a centerpiece. After dinner bridge was played until midnight, when the new year was welcomed in and every body joined in singing God Save the King. A jolly new year lunch was then enjoyed by all the guests, including Mr. and Mrs. G. C. Phillips, Mr. and Mrs. P. Lee, Mr. and Mrs. R. Fraser, Miss Betty Fraser, P. Pringle, W. Atkins, Master H. Chamney and Billy Fraser.

Little Ruth Elkins was very sick at her grandmother's in Calgary. She was reported to have matted trouble, but Mr. Elkins has returned to Chancellor and says the matted was successfully checked by treatment. We were all quite pleased with Mr. Elkins' recovery, as we all remembered the bad time Ruthie had a year or two ago with matted hair, and 'aving scarlet fever. Ruthie is going to the coast for a change now and we hope to see her much improved on her return.

Mrs. Purdy and three children are now able to be out again. Mr. Purdy had his hand, full with four 'nvalids in the house, but he has survived it, we are glad to see, and is quite his cheery old self again.

Mrs. H. Boyden received the sad news of the death of her sister in Washington. The deceased lady leaves a widow, her husband, and thirteen of a family, the youngest just an infant. She also leaves her parents, brothers, and sisters. Mrs. Boyden, as her young sister. We extend our sympathy to Mrs. Boyden.

The annual school meeting of Chancellor, Pilegastret, and Sunny Range school-districts are all on the same date, Saturday, Jan. 12th.

Mr. and Mrs. Chris Jorgensen entertained at a charming dinner party on Sunday last. Mr. and Mrs. P. Law, Arnold Law, Master Raymond, Mr. D. Middel, Mr. and Mrs. Fraser, Miss Betty and Billy were among the guests.

Mr. and Mrs. T. F. Toogood entertained at a turkey supper on Saturday evening.

The correspondent has been a du victim, and could not get the news items out last week.

Mr. and Mrs. J. M. Wheatley and Fred were guests of Mr. and Mrs. B. Plummer for New Year's Day.

Miss Eliza Fender, returned to Olds on Tuesday after being home for Christmas and New Year's holidays.

Mr. and Mrs. Ed. Young have returned after a two weeks' holiday.

Mr. and Mrs. P. Floury and Mr. and Mrs. Clifford Fleury have taken up residence in Hussar for the remainder of the winter.

MISCELLANEOUS, SHOWER

A miscellaneous shower in honor of Miss Frances Lee, was given at the home of Mrs. W. J. Reidmont on Wednesday evening, January 9th. The guest of honor was the recipient of many beautiful and useful gifts. After the presentation of gifts, Miss Lee graciously thanked her friends for the beautiful gifts and for their well wishes.
